

kaleidescape™

# DVDBulkLoader

For system integrators who want a rapid and cost-effective method for importing DVDs into Kaleidescape Systems, the Kaleidescape DVD Bulk Loader is the solution.

Unlike the process of importing one DVD at a time, the Kaleidescape DVD Bulk Loader employs a carousel DVD Changer to import up to 200 DVDs at a time without operator intervention.

## Automated importing of large DVD movie collections

The DVD Bulk Loader automates the DVD movie importing process by allowing up to 200 DVDs to be imported in one unattended session.

## Increase customer satisfaction

Deliver a complete service and solution by speeding up your customers' high-volume DVD imports.

## Save time

Import large numbers of DVDs with far less effort and in a fraction of the time it would take to feed them into a DVD Reader one at a time.

## Cost effective

The DVD Bulk Loader offers the lowest-cost option for importing DVD movies into a Kaleidescape System.

**Technical Features**

- Model: DVD BULK LOADER CHANGER

**Capacity**

- 200 DVDs

**Number of Drives**

- (2) DVD-ROM drives

**Dimensions (w x h x d)**

- 17" x 8.8" x 20"

**Net Weight**

- 30 lbs

**Disc Formats Supported**

- DVD-Video
- Pre-recorded DVD-R

**External Interfaces**

- IEEE 1394 FireWire (up to 400Mbps)

**Power Requirements**

- 110-240V AC, (auto-sensing)

**Operating Temperature**

- 5° to 40°C (41° to 104°F)

**Storage Temperature**

- -10°C to 60°C (14°F to 140°F)

**Operating Humidity**

- 10% to 90% relative humidity

**Storage Humidity**

- 5% to 95% relative humidity non-condensing

**Certifications**

- UL/cUL950
- EN 60950
- CISPR 22 Class A
- EN 50082-1 (1992)

**Technical Features**

- Model: DVD BULK LOADER CONTROLLER

**Dimensions (w x h x d)**

- 7.9" x 7.3" x 11.8"

**Net Weight**

- 13 lbs

**External Interfaces**

- 10/100Base-T Ethernet
- IEEE 1394 FireWire (up to 400Mbps)

**System Software**

- Kaleidescape DVD Bulk Loader software

**Power Requirements**

- 110-230V AC

**Certifications**

- FCC
- CE
- BSMI
- UV
- TUV

**Accessories Required**

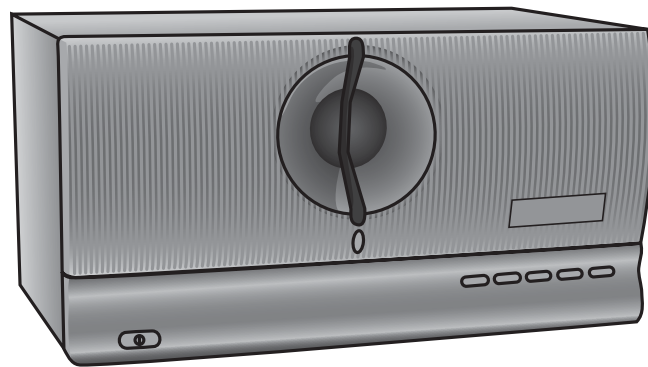

- IEEE 1394 FireWire cable

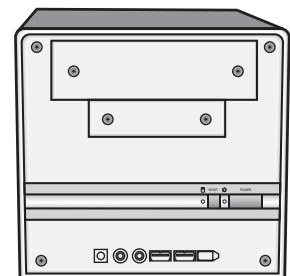

kaleidescape™

The Kaleidescape DVD Bulk Loader consists of two components: a DVD Bulk Loader Changer with dual DVD read-only drives, and a DVD Bulk Loader Controller. The Changer holds and imports up to 200 DVDs into a Kaleidescape System in approximately 55 hours.

The Changer connects to the Controller via a high-speed IEEE-1394 (FireWire) interface. The Controller manages the bulk import process into the Kaleidescape Server over a 100Base-T Ethernet connection. Kaleidescape's DVD Bulk Loader software is efficient, easy to use, and field-upgradeable.
